

Construction Begins in July for Litchfield Park City Center Infrastructure Improvements

The City of Litchfield Park has contracted with Achen-Gardner to construct infrastructure improvements for the Litchfield Park City Center development on the east side of Litchfield Road north of Wigwam Boulevard. Initial work includes preparation of the City Center site for installation of utility and infrastructure improvements to serve the future needs of the site.

Scheduled to begin July 6, crews will work on the City Center site to conduct landscape removals, clearing and mass grading. Utility installation and relocations, as well as drainage improvements will follow this work.

As the City of Litchfield Park sets in motion the Litchfield Park City Center development, you may see additional trucking and hauling activities on nearby roads, as well as heavy equipment on-site.

Thank you for your patience during this work!
